# **Hand Your Pony The Edge It Merits With Mega Horse Supplement**

## Is Your Pony Getting Its Essential Minerals And Trace Elements?

Mega Horse is a natural food supplement for mineral and trace part deficiencies. It is derived from a novel mix of soya meal base and sunflower seeds. Mega [Horse](#) replaces the minerals and trace elements that are missing from your horses pasture as a result of modern farming methods. By using Mega Horse as your feed supplement you are helping ensure that your horse is performing at its perfect level.

### Mega Horse Is

- Made using natural colloidal and rock minerals.
- Has no chemically produced minerals
- Is organically certified
- Has a base mixture of cracked black sunflower seed and soya meal
- Has a lovely taste for your horse
- Doesn't must be concealed amongst other feeds
- Provides necessary Omega oils for excellent health

### So What Does This Mean For Your Horse

This suggests that your horse's digestive balance and its metabolism will operate at its optimal level. This permits your pony to extract and process more goodness from the food that it eats which in its turn maximises its genetic potential.

Feeding Mega Horse can also assist in dumping other Problems like oily heel, Queensland itch, dry dull coat and cracked hooves.

The daily recommended portion of Mega Horse is founded upon the suggestions of some of the world's premier equine nutrition research facilities. This makes sure that your pony will have the right mineral and trace component balance that is essential to maximize the digestive system.

### What About Extra Vitamins

Mega Horse only contains vitamins that happen naturally within sunflower seeds and the soya meal base. By Feeding Mega Horse your Horse will naturally be able to extract more vitamins from its daily feed so enlarging its general fitness. Extra vitamins will often only be beneficial if your pony is under a heavy to terribly heavy workload.

Mega Horse Is available in a handy 10kg bucket with larger 25kg and 40kg bags available when required. When following the recommended daily dose, a 10kg tub will last one horse for 100 days.

[Mega Horse Supplement](#) is available in every size from KW [Saddlery](#)
